## Discussion items

Item	Who	Notes
Recent outages	<a href="#">Ralph A. Navarro Jr.</a>	<ul style="list-style-type: none"><li>• Power was shut off to my house on Thursday 3-June.<ul style="list-style-type: none"><li>◦ Electrical panel was upgraded from 20 circuit to 40.</li></ul></li><li>• An area power outage happened on Friday 4-June which lasted about 1 minute.</li></ul>
Docker Login issue for Jim and Tyler	<a href="#">Ralph A. Navarro Jr.</a>	<p>I was able to login to docker using Windows 10</p> <ul style="list-style-type: none"><li>• docker hub</li><li>• <a href="https://registry.technogynursery.org">registry.technogynursery.org</a></li></ul>
Unable to build frontend image using scheduledb branch	<a href="#">Ralph A. Navarro Jr.</a>  Paul Scheidemantel	<p>Checked out angularUpdate branch</p> <p>Jim found a working commit because he hadn't pulled the latest commit yet.</p> <p>Tested and tagged the commit as 'working'</p> <p>Merged 'working' tag into scheduledb branch</p> <ul style="list-style-type: none"><li>• git checkout scheduledb</li><li>• git merge working</li></ul> <ul style="list-style-type: none"><li>• Test building and running all images</li></ul> <p>sdb.go</p> <p>./scheduledb.install</p> <ul style="list-style-type: none"><li>• git push</li></ul> <ul style="list-style-type: none"><li>• Smoke test the services</li><li>• Deployed scheduledb to dev environment</li></ul> <p>Merged scheduledb branch into master branch</p> <ul style="list-style-type: none"><li>• Deployed master to prod environment</li><li>• Automated smoke tests failed at admin login test</li></ul> <ul style="list-style-type: none"><li>◦ Expected.</li><li>◦ Test failure was overlooked when admin user was removed because it had a simple password.</li></ul>

chromeLocalTest is failing	Tyler Putnam	Tyler found out that chrome has updated the browser version.
Ralph having spotty internet connectivity	Ralph A. Navarro Jr. Jim Turner Paul Scheidemantel Tyler Putnam	Ralph kept dropping voice, video and dropped out of the meeting once. After the meeting, Internet service went down completely <ul style="list-style-type: none"> <li>12:50 PM Jetpack reports Navarro Computing is down</li> <li>c. Comcast Business <ul style="list-style-type: none"> <li>Confirmed an area outage</li> <li>Estimated service restoration by ~4:30 PM</li> </ul> </li> <li>01:02 PM Jetpack reports Navarro Computing is online</li> <li>01:03 PM Comcast Business texts <ul style="list-style-type: none"> <li>Service is restored</li> </ul> </li> </ul>

## Action items

- ☐ Team: Create a set of smoke tests that are expected to pass in prod.
- ☐ Tyler Putnam 12 Jun 2021 Attempt to fix chromeLocalTest tests not running.
- ☐ Tyler Putnam Jim Turner 12 Jun 2021 Work with your ISPs to determine cause of not being able to login to docker. Ask if they are blocking ports or services?
